

Biography

Sue Cottee FCCA is a qualified accountant with a wealth of experience in all areas of accounting. After working within various practices for over 12 years, Sue set up her own firm with the aim of helping clients be successful and not treating them 'just as a number'. Established in Nottingham in 2007, Sue's Accounting Services (SAS) offers a comprehensive service which covers all personal and business accounting and tax needs and includes book-keeping, VAT, payroll, income tax returns and cash flow management. Sue believes that accounting is about much more than year-end and works closely with her clients throughout the financial year, helping them with business planning and assisting with the management of budgets and cash flow.

Current

SAS has a growing customer base in the Midlands area, including private individuals and businesses of all types and sizes. Sue and her team are successfully building strong, enduring relationships with their clients by providing much more than 'just another accountancy service.' SAS specialises in providing clients with regular, detailed management information to keep businesses up to date on their performance and pinpoint areas that are under performing. The client then knows the exact position of their business and is able to assess their priorities accordingly. Sue's clients also benefit from the specialist services of tax and financial planning experts who will work alongside them to identify areas where revenues can be boosted and tax liability reduced.

What SAS does

- Provides expert and professional advice across all areas of accountancy, tax and financial and business planning.
- Works to maximise a client's profits whilst reducing their overheads and tax liability.
- Ensures that companies stay compliant by managing all HMRC communications and paperwork.
- Works alongside businesses giving them the support they need to succeed in the marketplace.

Why SAS is different

SAS is a family-run company with a strong customer service ethos. Sue recognises that each client and their business are unique, so all services are tailored to suit their exact, individual needs. The SAS team pride themselves on delivering a personal and friendly, yet professional, service which makes their clients feel valued. Sue wants all her customers to feel that SAS is working with them rather than for them, and to feel that their accountant is a true ally to their business.
